Read, sound, write, check

Template 1

Read (Code)	Sound	Write	Check
Write the target words in this column. Ask the pupil to mark the graphemes in the word and sound them out.	This column should have lines according to the number of graphemes (spellings) in each word. Ask the pupil to write the graphemes on the lines and sound them out. Next, fold the sheet along the dotted line.	Ask the pupil to say the sounds in the word and spell the word as they do. Then they should unfold the paper and check if the word is spelled correctly.
